---

## PROJECTS

### **Namoz Vaqtlari API**

Free API offering prayer times for 12 regions in Uzbekistan and Karakalpakstan. Developed with Angular for the frontend and ASP.NET Core for the backend.

### **Pray Reminder Bot**

A Telegram bot reminding you of 5 daily prayer times, covering 12 regions and Karakalpakstan. By reminding pray times it also tells interesting quotes. I built its backend using ASP.NET Core. Now it's users above than 100.

### **Tarvooz**

Online market with a large assortment. This project done for Sharpist battle in Najot Ta'lim, and took first place
